

Botson Daniels & Associates provide high quality health and safety consultancy, training and accreditation with expertise in construction, demolition, industrial, manufacturing, factories & foundries, transport, facilities and other industries.

Botson Daniels & Associates has established environmental objectives at all relevant functions, levels and processes as needed for the environmental management system. These objectives demonstrate that Botson Daniels & Associates has taken into account the organisations significant environmental aspects, compliance obligations and considered risks and opportunities.

Botson Daniels & Associates is committed to the protection of the environment through all activities, products and services for interested parties. This includes prevention of pollution and other specific commitments relevant to the context of the organisation.

Interested parties for Botson Daniels & Associates include shareholders, employees, customers, subcontractors, suppliers, enforcement agencies and the general public.

To this end Botson Daniels & Associates will;

- ◆ Identify and agree with our customers, employers and visiting contractors the environmental aspects of our activities and aim to meet or exceed legislative and best practise requirements.
- ◆ Systematically identify the nature, scale and environmental impacts and eliminate, reduce or control impacts to environmental receptors.
- ◆ Is committed to the prevention of pollution, where it is practicable to do so, and to maintain, implement and improve our performance and management as an integral part of our business.
- ◆ Comply with relevant environmental legislation and guidance, Botson Daniels & Associates policy and other corporate and industry best practise initiatives to which Botson Daniels & Associates subscribes.
- ◆ To regularly review legislation and new best practise developments and ensure that where appropriate these are incorporated into existing management practises and procedure.
- ◆ To undertake open and timely measuring, monitoring and reporting of environmental performance through regular review and audit.
- ◆ Periodically set, review and communicate measurable and monitored objectives and targets.
- ◆ Provide appropriate training on relevant products, activities and management procedures.
- ◆ Communicate internally and externally our policies, procedures and performance where appropriate, to all interested parties.

- ◆ To build the highest possible standards of environmental best practice into all Botson Daniels & Associates systems, facilities and equipment.

The ultimate responsibility for Environmental performance lies with the Managing Director who will ensure that it is given equal priority with other major business objectives. Implementation of this policy is a line management responsibility at all levels together with participation of all employees.

This Environmental policy is communicated, understood and applied within the organization and is available to relevant interested parties, as appropriate.

The policy will be revised and updated as necessary.
